arjungopiraj@gmail.com | +91 7306575099 | [linkedin.com/in/arjun-g-sundar-926790114](https://www.linkedin.com/in/arjun-g-sundar-926790114) | <https://github.com/ArjunGopiraj> | Kolathur, Chennai, Tamil Nadu - 99

## Career Objective

MCA graduate with a strong foundation in software engineering, development and data science. Curious and driven, I thrive in collaborative, fast-paced environments, applying programming, data analysis, and critical thinking to build meaningful solutions. Eager to take on challenges and grow as a technology professional.

## Education

### Master Of Computer Application

College Of Engineering Guindy, Anna University, Chennai

2024-2026

CGPA: 9.00

### Bachelor of Computer Science

Mar Ivanios College, Trivandrum

2021-2024

CGPA: 8.84

### Higher Secondary

St Mary's Higher Secondary School, Trivandrum

2019-2021

Percentage: 94 %

### High School

St Mary's Higher Secondary School, Trivandrum

2016-2019

Percentage: 96 %

## Technical Skills

- Programming Languages: Python, Java, C++
- Web Development: HTML, JavaScript, CSS, TypeScript
- Database Management: SQL, MongoDB, Neo4j
- Data Science & Analysis: Python (NumPy, Pandas, Matplotlib, Scikit-learn), PowerBI
- Full Stack Software Development(MERN Stack): React.js, Node.js, Express.js
- Core CS Concepts: Data Structures and Algorithms, Object-Oriented Programming, Networks, ML, Software Engineering, Operating System
- Cloud: AWS

## Projects

### ACACoConnect - AI Powered Workflow Driven Event Management System

Dec 2025 - April 2026

- Developed ACACoConnect, a MERN stack event management system featuring end-to-end event lifecycle from creation to certificate distribution, FSM-based approval workflow, ML-powered recommendations (KNN, CF, Hybrid), Random Forest budget prediction, RAG chatbot, with Groq LLM, MapReduce financial analytics, automated scheduling with priority queue and graph coloring, and JWT authentication across 13 roles.

### IntelliLearn: AI-Powered E-Learning Platform - AWS, React, AI/ML

Sept 2025 - Oct 2025

- Developed IntelliLearn, an AI-powered e-learning platform using AWS services to automate video transcription, note generation and quiz creation with OpenAI Whisper and GPT models, providing a scalable, secure, role-based learning within the AWS Free Tier.

### Chennai Enquiry Bot: AI-Powered Chatbot - RAG, LLM, FAISS, Streamlit

Oct 2025

- Built an offline, domain-specific RAG chatbot using Mistral (Ollama), FAISS, and SentenceTransformer embeddings, with a Streamlit interface. It delivers personalized, factual responses about Chennai's places, food, shopping, movies, culture using JSON and PDF knowledge bases.

### Cricklytics: Batsman performance prediction - Python Data science project

Jan 2025 - Apr 2025

- Designed and executed an end-to-end data pipeline to collect, clean, and transform cricket match data. Built ML models (Decision Trees, Random Forest) with 92% prediction accuracy, using feature engineering and a similarity-based method to handle unseen matchups, and visualized results in Jupyter Notebooks.

## Internships

### Data Science Intern - CODSOFT

Jul 2025 - Aug 2025

- Completed a 4-week virtual internship focused on data analysis, machine learning, and visualization.
- Worked on real-world datasets using ML models to perform EDA, regression, and classification tasks.
- Applied Python (NumPy, Pandas, Matplotlib, Scikit-learn) to build predictive models and submitted them.

## Relevant Skill

Observation, Decision Making, Communication, Teamwork, Leadership, Multi-Tasking

## Hobbies

Cricket, Photography, Engaging in meaningful conversations, Travelling

## Languages Known

English, Malayalam, Tamil, Hindi
